

🇬🇧 *ECO EDP are pellet and wood heating boilers with an integrated pellet burner. There are three available models: EDP 35kw, 45kw and 65kw. The four-pass way design keeps pellet consumption low and ensures for high efficiency >92%. The boiler can be connected to a room thermostat and allows for daily and weekly programming. ECO EDP can be used with wood logs through using the firewood plate.*

### TECHNICAL SPECIFICATIONS

Parameters		EDP 35	EDP 45	EDP 65
Nominal Heating Output - Pelet	kw	35	45	65
Efficiency	%	93	93	93
Pellet Consumption	kg/h	2.50-7.50	3.00-9.60	4.00-14.00
Water Temperature	C	60-80	60-80	60-80
Electrical cons.(start-up)	w	150+450	150+450	150+450
Chimney	mm	120	120	120
Pellet Reservar	kg	150	160	180
Water Content	Lit.	64	94	115
Weight	kg	287	340	380
